Day-by-day Itinerary

Day 1

Meet your group at New Chitose Airport, and enjoy canoeing in Shikotsu-Toya National park

Welcome to Hokkaido. You'll meet your group at 13:00 at New Chitose Airport. Once everyone is together, we will hold a short meeting to introduce ourselves and to brief everyone on our upcoming 10-day adventure before heading to our first river adventure in Bibi river for canoeing.

After a short drive, we will arrive at the starting point of the upcoming 2 hours of relaxing canoeing. Hop on a canoe after a brief instruction by a canoe guide, and please put yourself into the untouched nature to refresh after a long flight. The Bibi River flows in Shikotsu-Toya National Park. It is an 18km river springs from the suburbs of New Chitose Airport to the "Lake Utonai " which became Japan's first bird sanctuary as a stopover site for migratory birds such as swans white-fronted geese. We might see some birds while having a coffee break on a canoe. After 2 hours of relaxing time on the river, we will be on the road for 30min to Lake Shikotsu.

Lake Shikotsu, located in Shikotsu-Toya National Park, is the 2nd largest caldera in Japan. The maximum depth is 360m/1,181ft and is the 2nd deepest lake in Japan. It is said that Lake Shikotsu is an unfrozen lake in the northernmost of Japan, but it is sometimes frozen in winter. It is famous for the lake's clear water with its transparency and Kokanee trout, which could only be seen in clear freshwater. After arriving at Lake Shikotsu onsen town, we first understand Shikotsu-Toya National park at the visitor center and check into the ryokan. Please savor your first dinner at Hokkaido and enjoy an open-air onsen.

Day 2

Guided SUP tour at 'Lake Shikotsu' the second largest caldera lake in Japan

After breakfast, we will relish clear water by SUP cruising for 3 hours at Lake Shikotsu. Lake Shikotsu is highly transparent to see the "columnar joints" in the lake even from the top of SUP. Columnar joints are Columnar cracks in the rock body created during the volcanic activity, crevices created when magma is rapidly cooled and contracted during caldera formation. Feel close to nature and fully enjoy the SUP cruising with the magnificent scenery of several active volcanos around the lake.

After 1 hour's drive, we will reach a unique roadside restaurant called 'Mushroom kingdom' to taste fresh mushrooms for our lunch. In the afternoon, we will drive one more hour and arrive at Fukidashi Park, a park in Kyogoku town near Niseko. It is well-known for tasty spring water chosen as Selected 100 Exquisite and Well-Conserved Waters in Japan. Eighty thousand tons a day, mineral water of Mt.Yotei has been gushing out upstream. The water tastes mellow and contains abundant minerals, and the average water temperature is cold as 6 C/42F. Many people fetch the mineral water here for drinking and domestic use.

It takes only 30 min from Fukidashi Park to our hotel in Niseko, a worldwide famous ski resort. Tonight, we will dine out at the center of Niseko, called the Hirafu area, to taste local food at the famous Izakaya.

Day 3

Guided ducky tour and fly-fishing at Shiribeshi river famous for clear stream in Niseko

Today, we will challenge the summer rafting course steering your ducky in Shiribeshi river. Duckies are inflatable kayaks good for singles or tandems where you get to steer and paddle. As we make our way down the river, you get to choose where you want to go and which waves you want to go through. The ducky tour goes down the same course as the rafting tour, so you can split your groups between these two river adventures.

After having lunch at the local café, we will go back to Shiribeshi river to try different river activity. Shiribeshi river is known for flying fishing with crystal clear water, clear and transparent like glass. Fly fishing is an angling method that uses a light-weight lure—called an artificial fly—to catch fish. The fly is cast using a fly rod, reel, and specialized weighted line. A fly-fishing guide will guide you with the best way to cast, and you might catch a cold-water species like trout and salmon.

Day 4

Farewell to Hokkaido and Transfer to Tokyo

Move to the city's western limit, sup Sake at a Brewery, then SUP on a Lake

After breakfast at the hotel, we drive to New Chitose Airport for 2 hours by a van and fly to Haneda Airport with ANA 564 at 10:10 and arrive at Haneda Airport at 11:25.

Meeting our through guide at Haneda Airport, on Tokyo Bay, we will drive across the mighty metropolis, home to around 15 million people, and head west, closing in on and finally joining the upstream-course of the Tama River. Lunch is at the Sawanoi Sake Brewery, wonderfully situated on the Tama, its source of the freshest water which is fundamental to all good Sake. After a hearty Japanese lunch, we'll tour the Brewery and learn of Sawanoi's 300-plus proud years of production, finishing, of course, with a spot of tasting.-

After briefly stopping at the hotel, we'll head straight out for an afternoon SUP on Lake Okutama, and a first chance to really take-in the resplendent greenery and nature of Okutama, all the more surprising in view of its location in Western Tokyo.

Dinner at the hotel is a western meal highlighting local ingredients, and flavored, at your discretion, with a particular local speciality, Okutama wasabi!

Day 5**Canyoning & Pack-Rafting in the stunning upper valley of the Tama River**

Today we travel a few kms from our hotel for a day spent not just on, but from time-to-time in the River, and a chance to see Okutama from an viewpoint very few get the chance to enjoy.

Canyoning is certainly not a traditional Japanese pastime. However, like ski-ing, Japan's unique climate and geography offer, in places, an ideal environment for the river sports now so popular around the World. Okutama, Tokyo's great and little-known outdoors, where the Tama River starts its descent from Lake Okutama to Tokyo Bay and the Pacific, is one such environment offering venues encompassing various levels of difficulty, each with its own breathtaking natural landscape. This morning (or afternoon, as weather dictates) enjoy as much, or little, canyoning as you want!

Lunch offers meat-lovers a chance to enjoy the wonderfully named Venison Volcano!

Few activities capture the raw power of rivers more vividly than rafting, and Okutama ia a perfect environment to experience and enjoy the increasingly popular style of pack-rafting.

This evening, we'll head out to a local eatery for a dinner including 'Hobayaki', in which ingredients are grilled on a large 'hoba' leaf., with the optional accompaniment of the local 'Tama-no-Megumi' micro-brew.

Day 6

Visit Tokyo's largest caves, cycle thru a gorge, & hike a historic riverside trail

Having experienced Okutama from Lake & River, on our last day in Tokyo's Great Outdoors, we'll take a slightly more conventional, though equally energetic and engaging, approach.

This morning we drive to the Nippara Limestone cave complex. Passage through the caves takes the form of an 800 metres walkway, giving opportunity so see the amazing geological formations, most notably stalactites and stalagmites, which have formed here over hundreds of thousands of years. The caves are kept at a permanent 11 degrees, so dress accordingly! Leaving the caves, enjoy a morning bicycle ride through the scenic Hikawa Gorge, down to the town of Okutama.

Our carb (or non-carb, as preferred)-loading lunch is at a Micro-Brewery Cafe, with a chance for a quick look at the Brewery, possibly even the Hop Yard, and of course some tasting.

After lunch, enjoy a 10-km hike along 'Okutama Mukashi Michi' historical road, which follows a disused railway line, tunnel and all, from the town to the Lake,, and includes some breathtaking views, a stop at the geologically fascinating Shirahige Shrine, and some fascinating anecdotes.

Our last dinner in Okutama will be a barbecue featuring local produce, and an opportunity to meet with some locals, and learn more about their lifestyle in this unique corner of Tokyo.

Information and Requirements

Dietary Restrictions

We believe that eating like the locals is the best way of experiencing Hokkaido's unique culture. However, we understand that it's not possible for everyone to do this and we're more than happy to cater for food allergies, dietary restrictions, and special requirements. If you have any diet restrictions or preferences, please tell us in the Registration Form at the time of booking, and we will do our best to accommodate your dietary needs.

In some rural areas particularly, we may ask you for some flexibility. For example, if you require halal food, we may be able to substitute for a vegetarian option instead. Please also be aware that for those who are allergic to MSG we may struggle to arrange a good alternative at every meal in Japan. Some of our overseas guests in the past found it difficult to find ready-made foods completely free of MSG, especially when buying from convenience stores. Most Japanese supermarkets sell simple foods like plain bread, boiled eggs, vegetables and fruits, so you should always be able to find something suitable. The most important thing about dietary requirements is to let us know in advance so we can prepare and organize the foods you need.

Emergency Response Plan

Your safety is our top priority, closely followed by fun and comfort! All our tour guides have years of guiding experience in the outdoors under their belt and have already taken an advanced firefighting lifesaving course. At all times, our guides will carry a first-aid kit, as well as have an extra kit in our vehicle and hold an Emergency plan with the nearest emergency hospital for any severe accident.

In case of heavy rain, strong winds or other unsafe weather conditions for trekking/climbing, there may be times when we have to change our tour plan. In such cases, we will try to substitute the original activity with other alternatives such as sightseeing, visiting museums or hot springs. We take charge of turning a bad day around into a fun day!

Weather Conditions

Hokkaido Region

June to September is a perfect time for sightseeing as the sunny days continue. In June and September short-sleeved shirts are good for some days, but long-sleeved shirts are a must for some chilly days, especially in the morning and evening, it gets cold, so you need a jacket, sweater, and trainer. In July and August, there are several midsummer days when the maximum daytime temperature exceeds 30°C, but the mornings and evenings are still cool. The average temperature in June is approximately 14°C / 58°F, and the average rainfall is 52mm (2.0 inches), in July and August is approximately 18°C / 64°F, and the average rainfall is 83mm (3.2 inches), in September is approximately 17°C / 62°F, and the average rainfall is 108mm (4.2 inches) The weather in Japan in September can bring typhoons. Although they are not as frequent as on Mainland Honshu, occasionally Hokkaido is hit by a cyclone (a weakened typhoon as it has travelled over Honshu to Hokkaido). To ensure your comfort and safety while on the road, be prepared for variable weather; warm, cold, and wet

Tokyo Region

Most of Tokyo's 15 million inhabitants dream of spending their summer in Okuataama! Daytime temperatures are likely to be in the low 20s in June & October, the high 20s in September, and the low 30s in July & August, when humidity also ramps up, though Okutama's mountains save it from the trapped heat & humidity which make late July & early August in central Tokyo almost unpleasant. So, tees/polo-shirts with a good sunblock are generally appropriate, though from June thru September long-sleeved shirts are recommended for cycling or walking, as the sun can be strong & shade is not always accessible. Evenings are pleasant, usually 10 degrees below daytime highs. Summer & autumn is typhoon season in Japan, and while not as frequent in Tokyo as in Japan's south-west islands Okinawa & Kyushu, we will take all necessary measures in communication and preparation to ensure your safety should one approach Tokyo.

Shikoku Region

May to June and September to October are generally warm and light clothing is enough for most people, but evenings can be cooler, so a having a fleece is recommended. Whatever you prepare for Hokkaido will also serve you well in Shikoku. In the autumn, typhoons sometimes sweep through Shikoku bringing wind and heavy rain. If conditions permit, we'll still cycle, so good waterproofs are essential

What is an *onsen*?

Most Hokkaido Local Hotel and Ryokan have an *onsen* spa, that is, natural hot springs. As a volcanically active landscape, Japan has well over 25,000 natural hot springs scattered throughout the country. Since ancient times, the people of Japan have loved *onsen* and will travel far and wide to visit famous *onsen* establishments.

Please keep in mind that there are certain protocols that go with bathing in an *onsen*, however they're super simple!

- You bathe in your birthday suit, that's right, no clothes or swimwear is allowed in the bath. Don't worry, no one is looking!
- Take a shower before you enter the water. It's important for the *onsen* waters to stay clean so make sure to rinse all soap off and long hair should be tied up. You can take a small towel in if you're feeling shy, but the towel cannot touch the waters.
- Be respectful of others. Do not run, talk too loudly, drink alcohol, or splash around while in the *onsen*.

Don't forget to take in a hand towel, so that you can lightly dry yourself before returning to the changing room. We're quite fussy about keeping the floors of the changing room dry. Last but not least, relax and enjoy yourself!

What is a *ryokan*?

On our tours, we use *ryokan* as much as possible to support local tourism businesses. A *ryokan* (旅館) is a traditional Japanese inn and it is the epitome of Japanese hospitality and cuisine. They are often located in natural surroundings and feature Japanese style rooms with tatami mats with rice paper partitions and futon (sleeping mattresses). Each *ryokan* prides itself on its cuisine and features seasonal local ingredients. Many *ryokan* also have on-site natural hot springs for their guests to enjoy during their stay.

Here are some good-to-know facts about *ryokan* to avoid unwelcome surprises.

- You are sleeping on the floor. A traditional Japanese room does not have western beds, instead *futon* bedding is provided. Often *ryokan* staff enter your room and prepare your *futon* while you are out for dinner.
- *Ryokan* provide "*yukata*", which is a traditional night robe that looks like a *kimono*. You can wear it to the hot spring spa and also to dinner, basically anywhere within the *ryokan* facility. Because in the evening we mostly dine in house, you don't have to bring a lot of evening clothes as long as you think you will be comfortable hanging around in your *yukata*. Our guides will explain how to wear *yukata* properly if you are unsure.
